

CONSTRUCTION SERVICES

Reduce time to completion with quality work that exceeds expectations. Trust USI to deliver expert nationwide management of labor and materials.

USI

BUILDING SOLUTIONS

Our Expertise

USI Construction Services' expertise in professional construction management enables us to provide turnkey structural services for up to 2500 units per year. To achieve this, we leverage the skill of over 70 seasoned field superintendents and area managers. For safety and quality, the majority of our superintendents are 10-hour OSHA certified, and most area managers are 30-hour OSHA certified.

Strong Leadership

An experienced executive team guides this division and provides oversight to ensure project quality. Many of our longtime employees started with the business over 10 years ago.

Best of Class

We take pride in honesty, professionalism and safety. Because of our attention to these principles, we have served many of the same customers year after year.

Proven Track Record

No other major structural contractor in Florida has the track record, longevity and reputation that USI Construction Services commands.

Growing Markets

Our teams are well known in Florida's expanding markets, including Dade, Broward, Palm Beach, Martin, St. Lucie, Indian River, Lee and Collier, which have been our primary service areas for two decades.

Consistent Results

- Reduced cycle times
- Reduced overhead
- Same or reduced construction costs
- Labor force scalability
- Builder communications

Work with a proven leader in shell construction services throughout Florida's growing markets. To request a quote or learn more, please contact USI Construction Services at USIinc.com.

USI Construction Services provides builders with turnkey structural shell services from value engineering to concrete to carpentry. For over two decades, our experienced residential and commercial structural construction teams have taken projects from planning through completion with unparalleled precision.

USI has developed the expertise to manage all aspects of building construction processes, from concrete to carpentry. Our nationwide network enables us to leverage materials procurement on every project. In addition, we are licensed and insured, and we provide specialized management of labor and materials.
